November 2nd, 1965

1155 EAST FIFTY-EIGHTH STREET

Dear Professor Goitein,

Upon returning to Chicago I began examining the notes I had made on the Adler MSS in New York last week, and am passing on to you now some information which you possibly may have overlooked:

ENA 4009 fol. 2 is an engagement contract written in Jerusalem probably near the end of the 10th century, and signed by Samuel ha-Kohen Gaon (i.e. ben Joseph). Perhaps you will still have time to include this document among those being published by you in Zion (for all I know, however, it is already published and perhaps even includes the document in question). Otherwise, it should of course be included in the volume of 10th-Century documents from the Genizah.

ENA 4007 fol. 5 is a legal document of 1004 C.E. which includes a date according to the shemittah year and is signed by, among others, Samuel the Third b. Hoshah'nah. These twin facts establish the Palestinian origin of this document, which is interesting also from the point of view of legal terminology.

the son of  
ENA 4007 fol. 6 is a letter signed by Samuel the Third b. Hoshanah. The letter mentions that "lō yimassē hēnah elohē yisra'el" and seems to reflect troubled conditions in Palestine in the first half of the 11th century. The document is referred to by Mann, Texts I, p. 325 note 2, but without any understanding of its contents.

The document given as no. 12 at the end of the Adler Catalogue, which was published (with but few imperfections) by Mann, Jews II, pp. 73-74, is now in a bound volume, classified as ENA 4009 fol. 4. I found it there quite by accident while looking through this volume. ✓

Let me thank you and Mrs. Goitein once again for your warm hospitality when I visited you in Philadelphia last week.

Sincerely,  
M. G.

THE LIBRARY  
OF  
THE JEWISH THEOLOGICAL SEMINARY OF AMERICA  
NORTHEAST CORNER, BROADWAY AND 122ND STREET  
NEW YORK 27, N. Y.

OFFICE OF THE LIBRARIAN

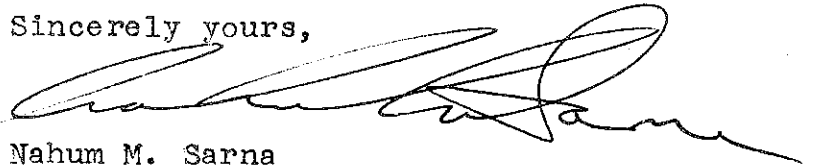

August 3, 1962

Dear Professor Goitein:

I just received your letter at a time when we are closing the Library for the month of August. However, I have managed to look through our past correspondence and have established the following: No. 1822 is a German manuscript. There is obviously a mistake on <sup>the</sup> 44 of Adler's Catalogue. Nos. 4010 and 4011 were sent to you. Both of these were listed under "main requests". Other items, 4020 and 4020I could not be located at the time of your order. However, we now have them and they can be microfilmed as soon as we return from the vacation. As to the other items, "laminated, uncatalogued, miscellaneous", there is a huge amount of material and it is most difficult to know what exactly you have in mind. Some of this is in such a state that I doubt whether it could be either photostated or microfilmed. I wonder whether it would be possible to leave this until you are next in New York when you could personally supervise the selection.

With best wishes for a pleasant summer.

Sincerely yours,

Nahum M. Sarna

Misc

July 31, 1962

Dear Dr. Sarna:

After having examined the material you kindly sent me - one reel of microfilms and one package of photostats - I should like to enquire about the rest of the Geniza records ordered by me. Is another consignment in preparation or on the way and is the payment made by me for the whole bunch ordered or solely for the two consignments mentioned above. The MAIN requirements listed on the right column in my list are not included in the material received thus far.

The photographer of 1942 did a rather hasty job, often cutting the exposure by half an inch or more. I mention this to you for a future complete microfilming of your stuff. On the other hand, some of the documents might have faded since then. Thus that microfilm still preserves some value.

Wishing you a pleasant summer vacation

and with kindest regards and thanks for all  
the trouble taken,

Sincerely,

S.d.D. Goitein
