Libal p^{a widow} writes to her nephew Libal p^a
from Daniva

Her mother, the writer's sister, was dead. Another sister of hers

Libal p^a was particularly close to her. took care of her
orders in the city. She is also invited to visit her. ^{the sister} she has
also had a son Libal p^a. It was very common that cousins
should bear the same name. A third sister ^{was} p^a is
only shortly greeted

she had ordered medicines for herself ^{mentioned 3 times (p. 11, 16, m)} Libal p^a the
medicines of the old women had become sluggish. For her
daughters ^(two times) aromatic plants to strengthen her heart
She had ordered for a friend a ^{Libal p^a} Libal p^a is
maids should be ready for delivery, that is presumed
- folded.

She prays for ^{dangerous} Libal p^a Although had several children
The father of the woman's Libal p^a wife was a V.I.P.
the aunt visited the writer together with him, which house
could give satisfaction to her

Inheritance

Inheritance Settlement between ^{unimproved} poor people } 2017

854 f. 21

Cairo

1108

Land of

for 2000K

This settlement was made immediately after the death of the father probably after long illness while consumed the savings of the family. For the family possessed a house & a maid-servant, but the funds were ~~about~~ almost entirely invested in the business. Cash 169 dirhems sugar, rose-marmalade, pithous, & honey all accounted $11\frac{1}{2}$ dinars.

Elder brother took over under the condition that $\frac{11\frac{1}{2}}{2} = 5\frac{3}{4}$ remained as debt to his

younger brother called ~~Abdallah~~ described as 16, but old enough to be ~~perfectly~~ to contract.

Mother remained in house & her rights (12 to 14 etc.) not specified, her collections were house-maid, but made no claims at present.

Only one important stipulation: 58 (or no debts) from his expenses.

Besides the uncorrected mistake in l. 13 not carefully made (8 years before his death). At least expected ≈ 1000 KH. Perhaps purposely omitted in order not to go into

doubtful details

in 187 he forgot $\langle 18, 18 \rangle$
